Pre-Calculus - BYU Math

Principle Five of the BYU-Idaho learning model states: "Learners and teachers at BYU-Idaho love, serve, and teach one another". In order to incorporate this aspect of the learning model in our course, it is important all students prepare and participate. Adequately prepared students should expect to spend 15-20 hours per week for Math 109.

Brigham Young University today announced the creation of the David E. and Verla A. Sorensen Center for Moral and Ethical Leadership. The new Center was made possible by a \$40 million endowment from the Sorensen Family, longtime supporters of BYU and members of the BYU President's Leadership Council.

Brigham Young University

Hmmm well Precalculus isn't a joke. I have to memorize basically every Precalc formula for the final exam. That includes all trig identities, polar conversions, all the conic formulas, and a few discrete math formulas like the Binomial Theorem and others. It's not super difficult, but certainly not a joke.
