The second volume in Norwich's highly-touted trilogy on Byzantium, this work takes the civilization from 800 through 1081 A.D. - or roughly the start of the crusading influences - and contains a good deal more detail than the first. (Apparently, around the year 800, Byzantians began to see the worth in actually writing things down.)

The Emperor Michael.V, shortly before his blinding John the Orphanotrophus was deeply affected by the Emperor's death. Schemer and intriguer though he was, his love for Michael had been deep and genuine; and he kept vigil by the body for three days and three nights until its burial. His two other brothers behaved very differently.

Mutilation was a common method of punishment for criminals in the Byzantine Empire but it also had a role in the empire's political life. Some disfigurements practised bore a secondary practical rationale as well. By blinding a rival, one would not only restrict their mobility but make it almost impossible for them to lead an army into battle, then an important part of taking control of the ...
