To create a simple pipe with C, we make use of the pipe() system call. It takes a single argument, which is an array of two integers, and if successful, the array will contain two new file descriptors to be used for the pipeline. After creating a pipe, the process typically spawns a new process (remember the child inherits open file descriptors).

Brigham Pipes. 131 Total ( 52 Fresh ) + About Brigham. Brigham pipes began in Toronto, Canada, in 1906 when Roy Brigham opened the famous shop. The business grew, and there were five other craftsmen by 1918, working on pipes that became known all over Canada. The early 1900s saw great innovation from pipe companies around the globe, and Brigham focused on removing the dreaded "tongue bite" that so many smokers experienced.
