My name is Brett. I'm a college educated man who once was a husband of 26 years with two children, three businesses, and a large home with an actual white picket fence. I'm also a drug addict. And I have a tale to tell. My story has everything: sex, death, pain, atheism, God, jail, marriage, divorce, heresy, homosexuality, physics, traffic fatalities, computer science, video games, cinnamon toothpicks, Barry Manilow, Nine Inch Nails, pornography, breasts, used tampons, strippers, venereal disease, abortion, prostitutes, AIDS, racism, suicide, infidelity, public nudity, anti-Semitism, marijuana, alcohol, pawn shops, drug dealers, needles, acid, ecstasy, crack, heroin, pain pills, withdrawal, interventions, rehabs, product tampering, road rage, vandalism, elderly abuse, grave desecration, arson, identity theft, burglary, armed robbery, and murder. But more importantly, it's about the despair of addiction and the absolute certainty that it can be overcome. Recovery is not simply abstinence, but a process of growing up. I spent my entire life searching for the key to long-term sobriety. I would like to share with you what I have learned

A gripping, ultimately triumphant memoir that's also the most comprehensive and comprehensible study of the neuroscience of addiction written for the general public. FROM THE INTRODUCTION: "We are prone to a cycle of craving what we don't have, finding it, using it up or losing it, and then craving it all the more. This cycle is at the root of all addictions, addictions to drugs, sex, love, cigarettes, soap operas, wealth, and wisdom itself. But why should this be so? Why are we desperate for what we don't have, or can't have, often at great cost to what we do have, thereby risking our peace and contentment, our safety, and even our lives?" The answer, says Dr. Marc Lewis, lies in the structure and function of the human brain. Marc Lewis is a distinguished neuroscientist. And, for many years, he was a drug addict himself, dependent on a series of dangerous substances, from LSD to heroin. His narrative moves back and forth between the often dark, compellingly recounted story of his relationship with drugs and a revelatory analysis of what was going on in his brain. He shows how drugs speak to the brain - which is designed to seek rewards and soothe pain - in its own language. He shows in detail the neural mechanics of a variety of powerful drugs and of the onset of addiction, itself a distortion of normal perception. Dr. Lewis freed himself from addiction and ended up studying it. At the age of 30 he traded in his pharmaceutical supplies for the life of a graduate student, eventually becoming a professor of developmental psychology, and then of neuroscience - his field for the last 12 years. This is the story of his journey, seen from the inside out.

From the New York Times bestselling author and former beauty editor Cat Marnell, a "vivid, maddening, heartbreaking, very funny, chaotic" (The New York Times) memoir of prescription drug addiction and self-sabotage, set in the glamorous world of fashion magazines and downtown nightclubs. At twenty-six, Cat Marnell was an associate beauty editor at Lucky, one of the top fashion magazines in America—and that's all most people knew about her. But she hid a secret life. She was a prescription drug addict. She was also a "doctor shopper" who manipulated Upper East Side psychiatrists for pills, pills, and more pills; a lonely bulimic who spent hundreds of dollars a week on binge foods; a promiscuous party girl who danced barefoot on banquets; a weepy and hallucination-prone insomniac who would take anything—anything—to sleep. This is a tale of self-loathing, self-sabotage, and yes, self-tanner. It begins at a posh New England prep school—and with a prescription for the Attention Deficit Disorder medication Ritalin. It continues to New York, where we follow Marnell's amphetamine-fueled rise from intern to editor through the beauty departments of NYLON, Teen Vogue, Glamour, and Lucky. We see her fight between ambition and addiction and how, inevitably, her disease threatens everything she worked so hard to achieve. From the Condé Nast building to seedy nightclubs, from doctors' offices and mental hospitals, Marnell "treads a knife edge between glamorizing her own despair and rendering it with savage honesty....with the skill of a pulp novelist" (The New York Times Book Review) what it is like to live in the wild, chaotic, often sinister world of a young female addict who can't say no. Combining "all the intoxicating intrigue of a thriller and yet all the sobering pathos of a gifted writer's true-life journey to recover her former health, happiness, ambitions, and identity" (Harper's Bazaar), How to Murder Your Life is mesmerizing, revelatory, and necessary.

NEW YORK TIMES BESTSELLER "I come from a family forged by tragedies and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

Bill Clegg had a thriving business as a literary agent, a supportive partner, trusting colleagues, and loving friends when he walked away from his world and embarked on a two-month crack binge. He had been released from rehab nine months earlier, and his relapse would cost him his home, his money, his career, and very nearly his life. What is it that leads an exceptional young mind want to disappear? Clegg makes stunningly clear the attraction of the drug that had him in its thrall, capturing in scene after scene the drama, tension, and paranoid nightmare of a secret life—and the exhilarating bliss that came again and again until it was eclipsed almost entirely by doom. He also explores the shape of addiction, how its pattern—not its cause—can be traced to the past. Portrait of an Addict as a Young Man is an utterly compelling narrative—lyrical, irresistible, harsh, honest, and beautifully

NATIONAL BESTSELLER • An up-close portrait of the mind of an addict and a life unraveled by narcotics—a memoir of captivating urgency and surprising humor that puts a human face on the opioid crisis. “Raw, brutal, and shocking. Move over, *Orange Is the New Black*.”—Amy Dresner, author of *My Fair Junkie* When word got out that Tiffany Jenkins was withdrawing from opiates on the floor of a jail cell, people in her town were shocked. Not because of the twenty felonies she’d committed, or the nature of her crimes, or even that she’d been captain of the high school cheerleading squad just a few years earlier, but because her boyfriend was a Deputy Sheriff, and his friends—their friends—were the ones who’d arrested her. A raw and twisty page-turning memoir that reads like fiction, *High Achiever* spans Tiffany’s life as an active opioid addict, her 120 days in a Florida jail where every officer despised what she’d done to their brother in blue, and her eventual recovery. With heart-racing urgency and unflinching honesty, Jenkins takes you inside the grips of addiction and the desperate decisions it breeds. She is a born storyteller who lived an incredible story, from blackmail by an ex-boyfriend to a soul-shattering deal with a drug dealer, and her telling brims with suspense and unexpected wit. But the true surprise is her path to recovery. Tiffany breaks through the stigma and silence to offer hope and inspiration to anyone battling the disease—whether it’s a loved one or themselves.

After three decades of living in the sandy beach suburbs of Huntington Beach, Jon Vreeland's heroin addiction has finally destroyed his once promising music career, and estranged himself from his wife and his two daughters. Now Vreeland broods his daughter's absence while living in his old tour van that is broken down and parked on Atlanta Avenue, on the brink of downtown Huntington Beach. He and his brand new lover and longtime junkie, Zooey Leigh, live in the van and sell and shoot heroin, move from place to place, shift from crime to crime, rob the undeserving in their brazen attempt to escape their hypodermic reality and themselves. But no matter where they go or who they stay with, they always circle back to the shores of Huntington Beach, where the dark nights are their lonely playground. But Jon isn't meant for this life—he wants nothing more than to rid himself of this very real nightmare, and return to his estranged family and career. This is the story of how he began to get out.

A non-stop trip into one man's land of desperate addicts, failed punk bands, and brushes with sad fame, as he sells drugs during the Seattle grunge years. In *American Junkie*, Tom Hansen maps his heroin addiction, from the promise of a young life to the prison of a mattress, from budding musician to broken down junkie, drowning in syringes and cigarette butts, shooting heroin into wounds the size of softballs, and ultimately, a ride to a hospital for a six-month stay and a painful self-discovery that cuts down to the bone. Through it all he never really loses his step, never lets go of his smarts, and always projects quintessential American reason, humor, and hope to make a story not only about drugs, but a compelling study of vulnerability and toughness.

Recounts the addiction and recovery of the world-renowned solo artist and former lead singer and songwriter of Soul Coughing.

I made money I’d never imagined and I wore velvet dresses and shone in lamplight. I walked tall in crowds, knowing myself to be desired. I told people I was a prostitute, and smiled as I said it, and dared them to turn their gaze...The smile that I give when I talk about it now is, I can feel, nostalgic, provocative. A brightness comes into my eyes. And, I’m told, a hard look too. In *My Skin* describes an extraordinary journey through an often hidden world of heroin and prostitution. Kate’s story is one of survival and resourcefulness, and an unflinching look at the consequences of addiction. More than just a fearless and compelling narrative, *In My Skin* is the triumphant announcement of a new talent in Australian writing.
