"Mid-nineteenth century Russian radicals who witnessed the Meiji Restoration saw it as the most sweeping revolution in recent history and the impetus for future global progress. Acting outside imperial encounters, they initiated underground transnational networks with Japan. Prominent intellectuals and cultural figures, from Peter Kropotkin and Lev Tolstoy to Saigo Takamori and Tokutomi Roka, pursued these unofficial relationships through correspondence, travel, and networking, despite diplomatic and military conflicts between their respective nations. Tracing these non-state networks, *Anarchist Modernity* uncovers a major current in Japanese intellectual and cultural life between 1860 and 1930 that might be described as "cooperatist anarchist modernity"—a commitment to realizing a modern society through mutual aid and voluntary activity, without the intervention of state governance. These efforts

later crystallized into such movements as the Nonwar Movement, Esperantism, and the popularization of the natural sciences. Examining cooperatist anarchism as an intellectual foundation of modern Japan, Sho Konishi offers a new approach to Japanese history that fundamentally challenges the "logic" of Western modernity. It looks beyond this foundational construct of modern history writing to understand people, practices, and cultural expressions that have been forgotten or dismissed as products of anti-modern nativist counter urges against the West."

Craig Costello, aka KR, grew up in Queens, New York, where graffiti was part of the landscape and a symbol of the city. While living in San Francisco, he quickly garnered attention when his signature "KR" tag popped up throughout the city. As he became one of the more prominent figures on the streets on NYC and San Francisco, he began to hone his craft by creating better tools launching his own line of homemade markers and mops, combining his moniker KR with the word INK. In KRINK: GRAFFITI, ART, AND INVENTION, Costello has compiled a visual memoir: from his early days of the '80s and '90s and launch with the hip New York City retailer Alife, which put his brand on the map, to his

evolution as an artist and high-fashion collaborator. The book showcases Costello's seminal style and his extensive body of work, including site specific installations around the world. It also chronicles his myriad collaborations with Alife, Nike, Coach, Moncler, Modernica, Marc Jacobs, Levi Strauss & Co., Mini (BMW), Casio, Smith Optics, Carhartt, Kidrobot, Medicom Toy, agnès b., and Colette, among many others. Today, Costello's reach and influence goes far beyond urban street culture. Krink has grown exponentially into a global artist materials brand with expanding collections of apparel, tools, and accessories, while Costello's unique aesthetic can be seen on objects from sneakers to luxury goods to cars. KRINK is both stylish and informative, capturing the ethos of punk and hip-hop culture, and is sure to appeal to the fans of high/low cultural crossovers, as well as die-hard fans of street art and fashion.

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in
