Gallup's Jim Clifton on The Coming Jobs War

The problem is that leaders don't know how to create jobs, especially in America. What they should do is recognize that the world is in a war for jobs. It seems that leadership has lost the will to win, especially in America, but this is a competition for our lives. To win, leaders need to compete.

everything from economics to foreign policy to nothing less than America ' s moral authority in the world. And it offers a prescription for attacking the jobs issue head-on. Clifton argues that the solution to creating good jobs must be found in cities, not in the federal government. Promoting entrepreneurship and job creation must be the sole mission and purpose of cities ' business leaders, government officials and philanthropists. Clifton says that the next big breakthrough will come from the combination of the forces within big cities, great universities and powerful local leaders. Their combined effect is the most reliable, controllable and predictable solution to America ' s biggest problem. Strong leadership teams and a natural order are already in place within cities — in governments and local

new mission: calling attention to the urgent steps America must take, including Universal Basic Income, to stabilize our economy amid rapid technological change and automation. The shift toward automation is about to create a tsunami of unemployment. Not in the distant future--now. One recent estimate predicts 45 million American workers will lose their jobs within the next twelve years--jobs that won't be replaced. In a future marked by restlessness and chronic unemployment, what will happen to American society? In *The War on Normal People*, Andrew Yang paints a dire portrait of the American economy. Rapidly advancing technologies like artificial intelligence, robotics and automation software are making millions of Americans' livelihoods irrelevant. The consequences of these trends are

already being felt across our communities in the form of political unrest, drug use, and other social ills. The future looks dire-but is it unavoidable? In *The War on Normal People*, Yang imagines a different future--one in which having a job is distinct from the capacity to prosper and seek fulfillment. At this vision's core is Universal Basic Income, the concept of providing all citizens with a guaranteed income-and one that is rapidly gaining popularity among forward-thinking politicians and economists. Yang proposes that UBI is an essential step toward a new, more durable kind of economy, one he calls "human capitalism."

One issue could lead to a disastrous war between the United States and China: Taiwan. A growing number of Taiwanese want independence for their island and regard mainland China as an alien nation. Mainland Chinese consider Taiwan a province that was stolen from China more than a century ago, and their patience about getting it back is wearing thin. Washington officially endorses a "one China" policy but also sells arms to Taiwan and maintains an implicit pledge to defend it from attack. That vague, muddled policy invites

miscalculation by Taiwan or China or both. The three parties are on a collision course, and unless something dramatic changes, an armed conflict is virtually inevitable within a decade. Although there is still time to avert a calamity, time is running out. In this book, Carpenter tells the reader what the U.S. must do quickly to avoid being dragged into war.

People will ask you throughout your life, “ Where do you work? ” and “ What do you do? ” They never ask you, “ What are you building? ” When conversations change to “ What are you building? ” the world will change. will change the world. A builder ' s venture could be a small business that grows into a mammoth enterprise, a thriving new division in an existing company, a nonprofit, a social enterprise, a church, a school — anything that creates economic growth and makes a lasting impact on society. Born to Build is written by Gallup Chairman and CEO Jim Clifton and Sangeeta Badal, Ph.D., Principal Scientist for Gallup ' s Entrepreneurship and Job Creation initiative, and is grounded in years of research. This book goes beyond the conventional economics-based business training and instead offers a uniquely psychological approach to venture building. It gives readers the tools and techniques they need to understand who they are, what motivates them and what they can build — and how. By following the practical steps

In 2010, the Army created Cultural Support Teams, a secret pilot program to insert women alongside Special Operations soldiers battling in Afghanistan. The Army reasoned that women could play a unique role on Special Ops teams: accompanying their male colleagues on raids and, while those soldiers were searching for insurgents, questioning the mothers, sisters, daughters and wives living at the compound. Their presence had a calming effect on enemy households, but more importantly, the CSTs were able to search adult women for weapons and gather crucial

intelligence. They could build relationships—woman to woman—in ways that male soldiers in an Islamic country never could. In *Ashley's War*, Gayle Tzemach Lemmon uses on-the-ground reporting and a finely tuned understanding of the complexities of war to tell the story of CST-2, a unit of women hand-picked from the Army to serve in this highly specialized and challenging role. The pioneers of CST-2 proved for the first time, at least to some grizzled Special Operations soldiers, that women might be physically and mentally tough enough to become one of them. The price of this professional acceptance came in personal loss and social isolation: the only people who really understand the women of CST-2 are each other. At the center of this story is a friendship cemented by "Glee," video games, and the

shared perils and seductive powers of up-close combat. At the heart of the team is the tale of a beloved and effective soldier, Ashley White. Much as she did in her bestselling *The Dressmaker of Khair Khana*, Lemmon transports readers to a world they previously had no idea existed: a community of women called to fulfill the military's mission to "win hearts and minds" and bound together by danger, valor, and determination. *Ashley's War* is a gripping combat narrative and a moving story of friendship—a book that will change the way readers think about war and the meaning of service.
