Revised edition of Financial accounting, [2017]

Helping Students Build a Solid Financial Accounting Foundation This text is designed to provide students with the best tools and resources to understand accounting. Financial Accounting introduces the financial statements and the conceptual framework that underlies them in Chapter 1, and builds on this foundation throughout the remaining 12 chapters. The concepts and procedures that form the accounting cycle are also described and illustrated early in the text (chapters 2 and 3) and are then applied consistently in the chapters that follow. By introducing financial accounting's most critical concepts and procedures early in the book and then repeatedly applying them in the context of new material in later chapters, students will finish the textbook with a sound grasp of introductory financial accounting principles. For introductory courses in Financial Accounting. A User-Focused Approach and Solid Foundation in the Construction and Analysis of Financial Statements for Use in Future Courses and Careers Financial Accounting gives readers a solid foundation in the fundamentals of accounting and the basics of Financial Statements, and then builds upon that foundation to offer more advanced/challenging concepts and problems. This scaffolded approach helps students to better understand the meaning and relevance of financial information, see its relevance within a real-world context, as well as develop the skills needed to analyze financial information in both their course and career. While maintaining hallmark features of accuracy, readability, ease of understanding, and a wealth of accessible algorithmic problems, the Eleventh Edition includes updated explanations, coverage, and ratio analysis with decision-making guidelines. These latest methodologies and technology ensure that students learn basic concepts in accounting in a way that is relevant, stimulating, and fun, while exercises and examples from real-world companies help students gain a better grasp of the course material. Also Available with MyAccountingLab® MyAccountingLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. Reporting have been thoroughly updated in line with recent changes to AIFRS and the Framework. The four-colour design provides students with a more reader-friendly text, enhancing their understanding of concepts and ensuring learning outcomes are achieved. The text builds on the thorough and reliable explanation of the accounting process through the addition of new 'Link to business' chapter vignettes that apply the principles to practice. Previous editions were renowned for the number of exercises and problems, and the new edition builds upon this superior teaching feature. The end-of-chapter activities encourages the development of skills in decision-making, critical thinking, ethical thinking, analysis and communication, building student confidence for success in their course.
