The weak growth performance since 1990 reflected largely a continuous contraction in agricultural output, which declined each year from 1989 to 1993. The construction industry experienced a major contraction in 1992 owing to the sharp fall in public investment. In 1993, output declined in the mining and quarrying, construction, and manufacturing sectors as well as in agriculture. In contrast, the hotel and restaurant sector has exhibited strong

Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.
