The Two-Minute Math Drill series was created to help teachers and parents monitor student progress in operations skills. This book focuses on fractions and decimals. It is a great tool to improve student efficiency in absorbing math facts by making use of timed two-minute drill exercises. Students learn one skill at a time and must master each assignment before moving on to the next timed drill. Each exercise includes a brief review of the skill offered in the last timed test before parenting problems involving the new math fact. The first half of the book reinforces operations skill with decimals; the last half focuses on fractions. The final pages include problems involving both fractions and decimals. Students clearly see their progress as they master each skill. They also become more accustomed to working against the clock as they build greater self-confidence in taking the standardized tests they will face in the future. Reproducible. Answer keys included
