" This year, with the COVID-19 pandemic forcing most Americans to remain at home for months on end amid great social, political, and economic uncertainty, the threat of online radicalization is bigger than ever, " wrote the authors of a new report, Building Resilience & Confronting Risk in the COVID-19 Era: A Parents & Caregivers Guide to Online Radicalization.

In January 2007, New York City Police Commissioner Raymond W. Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department's firearm-training program and identify potential improvements in it and in the police department's firearm-discharge review process. This monograph reports the observations, findings, and recommendations of that study.

Based on a case study of New York City police officers, this important volume analyzes how officers contend with often-ambiguous laws in the face of specific crime scenarios. In addition, the author explores other influences on police decision making, including officer characteristics and attitudes, and makes policy recommendations in an effort to encourage the reinforcement of legal guidelines so that the rights of individuals are appropriately balanced with the duty to control crime.

Police Corruption in the NYPD: From Knapp to Mollen explores how the New York Police Department experienced two major investigations within a quarter of a century. It compares the states of corruption within the NYPD during the Knapp and Mollen commissions, examining why corruption continued and why the revealed ethical breaches became more serious. It also discusses how corruption was enhanced even after accountability and responsibility were assigned to department administration. The book gives in-depth discussions of the Knapp and Mollen reports and relates the history and relevance of efforts to combat corruption and to improve police practices. It uses empirical data from interviews and current NYPD recruit training documents as reference materials in examining police practices. It also identifies failures of leadership that contributed to the systemic ethical degeneration of the NYPD. Police Corruption in the NYPD goes beyond the training of ethics and enforcement by delving into the departmental failures that permit officers to develop from being merely unethical to becoming criminals. By presenting and analyzing theories of corruption from current authorities, it lays a foundation for critical discussion and comparison between commissions as well as current department ethical training and practices.
