In his highly provocative first book, Scott Galloway pulls back the curtain on exactly how Amazon, Apple, Facebook, and Google built their massive empires. While the media spins tales about superior products and designs, and the power of technological innovation, Galloway exposes the truth: none of these four are first movers technologically - they've either copied, stolen, or acquired their ideas. Readers will come away with fresh, game-changing insights about what it takes to win in today's economy. Print run

In *Critical Thinking and the Process of Evidence-Based Practice*, Eileen Gambrill provides a detailed description of the process of evidence-based practice (EBP), designed to help individual practitioners and their clients make informed decisions. This book clearly distinguishes EBP from the promotion of EBPs, and discusses the origins of the process as well as related controversies and implementation obstacles. Ethical obligations to involve clients as informed participants are emphasized including attention to the close connection between evidentiary and ethical issues. The text features chapters covering clinical expertise, argumentation, avoidance of biases and fallacies, and common organizational and personal obstacles in

Executive Director of the Fraunhofer Institute for Integrated Circuits IIS and from the Endowed Chair of Information Technologies with a Focus on Communication Electronics (LIKE) at the Friedrich-Alexander-Universität Erlangen-Nürnberg. Heinz Gerhäuser's vision and entrepreneurial spirit have made the Fraunhofer IIS one of the most successful and renowned German research institutions. He has been Director of the Fraunhofer IIS since 1993, and under his leadership it has grown to become the largest of Germany's 60 Fraunhofer Institutes, a position it retains to this day, currently employing over 730 staff. Likely his most important scientific as well as application-related contribution was his pivotal role in the development of the mp3 format, which would later become a worldwide

success. The contributions to this Festschrift were written by both Fraunhofer IIS staff and external project team members in appreciation of Prof. Dr. Gerhäuser's lifetime academic achievements and his inspiring leadership at the Fraunhofer IIS. The papers reflect the broad spectrum of the institute's research activities and are grouped into sections on circuits, information systems, visual computing, and audio and multimedia. They provide academic and industrial researchers in fields like signal processing, sensor networks, microelectronics, and integrated circuits with an up-to-date overview of research results that have a huge potential for cutting-edge industrial applications.

Best known for the ever popular Mike Mulligan and His Steam Shovel and the Caldecott Medal winner The Little House, Virginia Lee Burton wrote and illustrated stories that have been entertaining children, parents, and grandparents for more than sixty years. Many of her books—with themes that honor a simple way of life and celebrate heroes who endure through determination and by adapting to

change—have become classic American tales. With an introduction by Barbara Elleman, author of *Virginia Lee Burton: A Life in Art*, this handsome collection commemorates four of Burton's most popular stories, each featured complete and unabridged. Their appeal today, as strong as when the books were first published, is a tribute to one of America's most innovative illustrators, designers, and writers of stories for children.
