This book presents biographical portraits of 22 of psychology's pioneers, portraits of them as men and women as well as scientists. All of these portraits, many of them offered by a descendant, colleague, or student of the pioneer, are informal. Most of them are lighthearted, even humorous, in their approach. A few are intimate and personal.

Portraits of Pioneers in Psychology

Portraits of Pioneers In Psychology. The seven-volume series, Portraits of Pioneers In Psychology, was published under the sponsorship of Div. 1 (the Society for General Psychology) from 1991 to 2011. Edited by several of Div. 1's leaders, each volume includes

This third volume in a series devoted to luminaries in the history of psychology--features chapter authors who are themselves highly visible and eminent scholars. They provide glimpses of the giants who shaped modern cognitive and behavioral science, and shed new light on their contributions and personalities, often with a touch of humor or whimsy and with fresh personal insights. The animated style, carefully selected details, and lively perspective make the people, ideas, and controversies in the history of psychology come alive. The fields touched on in this and other volumes cover all of the subfields of psychology. As such, all volumes of Portraits of Pioneers in Psychology will be of interest to

psychologists who have made substantial contributions to the field of the history of psychology. These chapters illustrate the pioneering endeavors of such significant figures, and are written in a lively, engaging style by authors who themselves have achieved a reputation as excellent scholars in the history of psychology. Several of the chapters are based on the author's personal acquaintance with a pioneer, and new, previously unavailable information about these luminaries is presented in this volume. Each of these volumes provides glimpses into the personal and scholarly lives of 20 giants in the history of psychology. Prominent scholars provide chapters on a pioneer who made important contributions in
