To age with the sun and moon and be renewed by spring and summer, to conserve the seeds of growth in autumn and winter and to be nourished by the eternal breath of the Tao—these are the goals of the Taoist alchemists, the masters of the arts of health, longevity, and immortality. This book is a translation of a concise Taoist alchemical

Download Free The Alchemy Of Ual Energy Connecting To The Universe From Within

manual known as the Dragon-Tiger Classic, along with its two most important commentaries. The classic, written in ancient times by an unknown author and published during the fifteenth century BCE, is regarded by contemporary Taoist practitioners as the most complete guide to spiritual transformation. It covers the three forms of Taoist practice:

- External alchemy, concerned with the ingestion of minerals, herbs, and other substances to attain health, longevity, and immortality
- Sexual alchemy, in which the practitioner uses the energy of a sexual partner to cultivate his or her own energy
- Internal alchemy, the practice of meditation, calisthenics, and yogic postures to cultivate mind and body

An extensive introduction by the translator and the inclusion of two commentaries by traditional Chinese authors aid the reader in understanding this concise, symbolic text.

"The Literati Path explores the life and teachings of the Ming author and alchemist Lu Xixing (1520-1601). It begins by examining his biography, religious community, alchemical doctrine, and methods of practice. Lu was special in that he embodied the literati tradition of self-cultivation, engaging in the alchemical arts without ever leaving his habitual life. He did not abandon his family, was never ordained, and had no connection to Daoist or other institutions. He learned internal alchemy from books and through spirit-writing seances where he met Lü Dongbin and other immortals. Next, the work expounds the cosmological doctrines at the foundation of internal alchemy, including those found in the Yijing and the Cantong qi, and outlines the universal ebb and flow of yin and yang as the basis of the immortal elixir. It moves on to describe just how the practice serves to overcome destiny, modeling techniques on biological gestation and creating a

new being deep within. It explains major alchemical concepts as applied by Lu Xixing and systematically describes his path to immortality, all the while questioning the validity of his reputation as a sexual alchemist. Shedding fascinating new light on the religious life of Ming literati and providing a first access to a unique take on internal alchemy in late imperial China, *The Literati Path to Immortality* is a must for anyone interested in traditional Chinese religion and culture!"--

ented here make the process of linking sexual energy and transcendent states of consciousness accessible to the reader.

"This volume discusses the works of three female American poets: Anne Bradstreet (1612-1672), Elizabeth Bishop (1911-1979), and Amy

Clampitt (1920-1994). Each poet is shown to grapple with the ways that European civilization was transformed on the new continent. The author's analysis highlights the interconnected themes of travel, geography, cartography and wildness"--Provided by publisher.

The idea of heavenly ascent, while popularized in Jewish mysticism, is neither a unique nor recent one. Expertly tracing its origins back to the ancient Middle East, Leveda unearths ascent literature in Africa, India, and China, discerns a common connection in the heavens themselves, and determines that this connection has been sorely neglected in contemporary scholarship. Because scholars treat the "heavens" as metaphorical, it is necessary to recreate the physical

context of the culture under discussion in order to better understand it. For the benefit of the reader, Levenda offers two useful concepts for his investigative journey: a "map," whereby he means the cosmological system to better understand the mystical technologies of each culture investigated, and a "vehicle," the method by which the individual equipped with special knowledge is able to navigate the culture's particular cosmology. With these two tools, Levenda travels from the worlds of ancient Egypt and Babylon to the Hebrew Bible, to Jewish and Christian kabbalists, to Daoists in ancient China, to Hindu Tantra and Haitian Vodoun, and, finally, to nineteenth and twentieth century European occult societies.

The Alchemical Body excavates and centers within its Indian context the lost tradition of the medieval Siddhas. Working from previously

Download Free The Alchemy Of Ual Energy Connecting To The Universe From Within

unexplored alchemical sources, David Gordon White demonstrates for the first time that the medieval disciplines of Hindu alchemy and hatha yoga were practiced by one and the same people, and that they can be understood only when viewed together. White opens the way to a new and more comprehensive understanding of medieval Indian mysticism, within the broader context of south Asian Hinduism, Buddhism, Jainism, and Islam. "White proves a skillful guide in disentangling historical and theoretical complexities that have thus far bedeviled the study of these influential aspects of medieval Indian culture."—Yoga World "Anyone seriously interested in finding out more about authentic tantra, original hatha yoga, embodied liberation . . . sacred sexuality, paranormal abilities, healing, and of course alchemy will find White's extraordinary book as fascinating as any Tom Clancy thriller."—Georg Feuerstein, Yoga Journal
