An Exploration of Imhotep-Architect of the Step Pyramid at Saqqara, High Priest of Ra, and Royal Astronomer-as well as His Influence as the True Father of African Civilization. In this groundbreaking book, Egyptologist Robert Bauval and astrophysicist Thomas Brophy uncover the mystery of Imhotep, an ancient Egyptian superstar, pharaonic Da Vinci, Michelangelo, Galileo, and Newton all rolled into one. Based on their research at the Step Pyramid Complex at Saqqara, Bauval and Brophy delve into observational astronomy to 'decode' the alignments and other design features of the Step Pyramid Complex, to uncover the true origins and genius of Imhotep. Like a whodunit detective story they follow the clues that take them on an exhilarating magical mystery tour starting at Saqqara, leading them to temples in Upper Egypt and to the stones of Nabta Playa and the black African stargazers who placed them there. Imhotep the African describes how Imhotep was the ancient link to the birth of modern civilization, restoring him to his proper place at the center of the birthing of Egyptian, and world, civilization.

Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From the author of The Orion Mystery, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, The Egypt Code reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. The Egypt Code revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the orientation and location of religious sites.

Presents proof that an advanced black African civilization inhabited the Sahara long before Pharaonic Egypt • Reveals black Africa to be at the genesis of ancient civilization and the human story • Examines extensive studies into the lost civilization of the "Star People" by renowned anthropologists, archaeologists, genetic scientists, and cultural historians as well as the authors' archaeoastronomy and hieroglyphic research • Deciphers the history behind the mysterious Nabta Playa ceremonial area and its stone calendar circle and megaliths Relegated to the realm of archaeological heresy, despite a wealth of hard scientific evidence, the theory that an advanced civilization of black Africans settled in the Sahara long before Pharaonic Egypt existed has been dismissed and even condemned by conventional Egyptologists, archaeologists, and the Egyptian government. Uncovering compelling new evidence, Egyptologist Robert Bauval and astrophysicist Thomas Brophy present the anthropological, climatological, archaeological, geological, and genetic research supporting this hugely debated theory of the black African origin of Egyptian civilization. Building upon extensive studies from the past four decades and their own archaeoastronomical and hieroglyphic research, the authors show how the early black culture known as the Cattle People not only domesticated cattle but also had a sophisticated grasp of astronomy: created plentiful rock art at Gifl Kebir and Gebel Uwainat; had trade routes to the Mediterranean coast, central Africa, and the Sinai; held spiritual and occult ceremonies; and constructed a stone calendar circle and megaliths at the ceremonial site of Nabta Playa reminiscent of Stonehenge, yet much older. Revealing these "Star People" as the true founders of ancient Egyptian civilization, this book completely rewrites the history of world civilization, placing black Africa back in its rightful place at the center of mankind's origins.

The Cygnus Constellation holds the key to proving that life originated in the heavens-and will ultimately return there. Best-selling author Andrew Collins has uncovered an astronomy that is about 17,000 years old, with standing stones, temples, and monuments across the globe oriented towards Cygnus's stars. He also found that the use of deep caves by Palaeolithic man led to the rise of religious thought and the belief in life's stellar origins. Now modern-day technology has confirmed that high-energy particles come from a binary star known as Cygnus X3. Ancient people knew what science is finally verifying: that the DNA of life came originally from deep space.

NATIONAL BESTSELLER • Two Egypt experts posit a revolutionary theory: The Sphinx and other great Egyptian monuments are older than common history books tell us and are arranged in such a way as to send us a message from the silent past. Guardian of the ancient mysteries, the keeper of secrets . . . For thousands of years the Great Sphinx of Egypt has gazed toward the east, its eyes focused on eternity, reading a message in the stars that mankind has long forgotten. And today as our civilization stands poised at the end of a great cycle, it is a message that beckons insistently to be understood. All the clues are in place. Geology and arche-astronomy have already indicated that the lion-bodied Sphinx may be vastly older than Egyptologists currently believe, dating not from 2500 B.C., but from 10,500 B.C.--the beginning of the astrological Age of Leo. And we now know that the three pyramids of Giza, standing on high ground half a mile to the west of the Sphinx, are in fact a precise map of the three stars of Orion's belt, formed in fifteen million tons of solid stone. Are these monuments trying to tell us something? And, if so, what? In The Message of the Sphinx, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work that unravels the millennial code embodied in these structures. Using sophisticated computer simulations of ancient skies, they unravel the riddle of the Sphinx, and they present a startling new theory concerning the enigmatic Pyramid Texts and other archaic Egyptian scriptures. Their discoveries lead the authors to this question: Does mankind have a rendezvous with destiny--a rendezvous not in the future, but in the distant past, at a precise place and time? The secrets can be kept no longer. The Message of the Sphinx brings them to light.

Are you looking for a great idea or some inspiration to start a new venture or to help you grow your existing business? This book contains 100 great business ideas, extracted from the world's best companies.Ideas provide the fuel for individuals and companies to create value and success. Indeed the power of ideas can even exceed the power of money. One simple idea can be the catalyst to move markets, inspire colleagues and employees, and capture the hearts and imaginations of customers. This book can be that very catalyst. Each idea is succinctly described and is followed by advice on how such an idea can be applied to the reader's own business situation. A simple but potentially powerful book for anyone seeking new inspiration and that killer application.

Exposes the many cycles of monument destruction and cultural suppression in Egypt from antiquity to the present day • Details the vandalism of Egyptian antiquities and suppression of ancient knowledge under foreign rulers who sought to cleanse Egypt of its "pagan" past • Reveals the real reason behind Napoleon's invasion of Egypt: Freemasonry • Shows how the censorship of nonofficial Egyptology as well as new archaeological discoveries continued under Antiquities Minister Zahi Hawass Called the "Mirror of Heaven" by Hermes-Trhot and regarded as the birthplace of civilization, science, religion, and magic, Egypt has ignited the imagination of all who come in contact with it since ancient times--from Pythagoras and Plato to Alexander the Great and Napoleon to modern Egyptologists the world over. Yet, despite this preeminence in the collective mind, Egypt has suffered considerable destruction over the centuries. Even before the burning of the Great Library at Alexandria, the land of the pharaohs was pillaged by its own people. With the arrival of foreign rulers, both Arabic and European, the destruction and thievery continued along with suppression of ancient knowledge as some rulers sought to cleanse Egypt of its "pagan" past. Exploring the many cycles of destruction and suppression in Egypt as well as moments of salvation, such as the first registered excavations by Auguste Mariette, Robert Bauval and Ahmed Oaman investigate the many conquerors of Egypt through the millennia as well as what has happened to famous artifacts such as the Rosetta Stone. They show how Napoleon, through his invasion, wanted to revive ancient Egyptian wisdom and art because of its many connections to Freemasonry. They reveal how the degradation of monuments, theft of relics, and censorship of ancient teachings continue to this day. Exposing recent cover-ups during the tenure of Antiquities Minister Zahi Hawass, they explain how new discoveries at Giza were closed to further research. Clearing cultural and historical distortions, the authors reveal the long-hidden and persecuted voice of ancient Egypt and call for the return of Egypt to its rightful place as "the Mother of Nations" and "the Mirror of Heaven."
