Wasted Heart (Ruining #3) by: Nicole Reed “Who are you?” The image in the mirror staring back at me feigns disinterest. Rock star? Recovering addict? Murderer? How can you explain to someone what it’s like not to care? Not about yourself or the person standing next to you. I’ve lost that, the ability to feel and show affection.

Eighteen year old Jay Stevenson is living a horrible nightmare. Two years ago, she had the world in the palm of her hand, but in one moment, it was ruined. Secrets, lies, and the worst imaginable betrayal haunt her new reality. Burying her problems under a cold fa ç ade seems to be the only way to cope until it all catches up with her. Soon, she loses control of the lonely world she built around her, and the past, present, and future collide. Three guys are there when it all comes crashing down: JT, the perfect boyfriend she never wanted to give up; Rhye, the local bad boy “ rock star ” who made her forget the past; and Kane, the funny and sweet tattooed bartender who wants her future. Secrets must be kept. Choices must be made. Is it possible to move forward while still chained to the wicked vices of the past?

For a girl who dared to tempt death, living is the only promise that matters now. Jay's life almost came to a forced end when her darkest secrets were revealed and the one who she chose to give her future to was ripped away. Now, everything she kept hidden is the topic of everyone's conversation, and not all are sympathetic. Someone wants her horrific past to dictate her future, and another is determined to help her choose a different path. In conclusion to Ruining Me, Kane and Rhye know that Jay is worth the fight, but waiting for her to find herself may ruin them all. Recommended for readers 17+ due to sexual situations, violence, and language.

This novel is not a cliffhanger and can be read as a stand-alone. WARNING: This book is real, beautifully raw, and not for the faint of heart. It is the story of a young girl's loss of innocence while growing up around a motorcycle club. It is not suitable for children under the age of seventeen due to language, sexual content, and intense subject matter. Based on true events. Family. I have tattooed that single word on more skin than I care to count. It elicits powerful thoughts and emotions for most people. Loving. Caring. Supportive. Togetherness. Forever. But not for me. The word family means so much more. Vicious. Harmful. Dangerous. Corrupt. Deadly. You can't run forever from the ones who love you.

The critically acclaimed, award-winning, modern classic *Speak* is now a stunning graphic novel. "Speak up for yourself—we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless—an outcast—because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. Through her work on an art project, she is finally able to face what really happened that night: She was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. With powerful illustrations by Emily Carroll, Laurie Halse Anderson's *Speak: The Graphic Novel* comes alive for new audiences and fans of the classic novel. This title has Common Core connections.

From the physician behind the wildly popular NutritionFacts website, How Not to Die reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In How Not to Die, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America-heart disease, various cancers, diabetes, Parkinson's, high blood pressure, and more-and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn't have to be the case. By following Dr. Greger's advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug-and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, How Not to Die includes Dr. Greger's Daily Dozen -a checklist of the twelve foods we should consume every day.Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.
