Resources, money, miscommunication...these are the things that start wars. "Battlefield Ukraine" explores a potential war between NATO and Russia over the fate of separatist regions in east Ukraine. While President Petrov draws his line in the sand, a new American administration is sworn in. The Russians launch a massive disinformation campaign to taint the US election and distract America as they begin to move their forces to the Ukrainian border. When Russia implements a no-fly zone over eastern Ukraine to prevent the US-backed Ukrainian government from putting down a civil war, things begin to escalate out of control. American and NATO aircraft attempt to call Petrov's bluff and fly over the no-fly zone, but they are ambushed by an overwhelming show of force. In response to this aggression, the US sends additional military units to Europe. President Petrov issues an ultimatum--the US and NATO must withdraw from Ukraine or be forcibly removed. Will the new American President back down, or will the world creep one step closer towards war? Find out in this first book of the new Red Storm Series.
