(PDF) The Data Journalism Handbook

Data-driven journalism is the future. Journalists need to be data-savvy. It used to be that you would get stories by chatting to people in bars, and it still might be that you'll do it that way sometimes. But now it's also going to be about poring over data and equipping yourself with the tools to analyze it and pick out what's interesting.

1. Introduction - The Data Journalism Handbook [Book]

Data journalism is a new set of skills for searching, understanding and visualizing digital sources in a time that basic skills from traditional journalism just aren't enough. It's not a replacement of traditional journalism, but an addition to it. In a time where sources go digital, journalists can and have to be closer to those sources.
