OpenCV has everything you need for image manipulation or computer vision applications. Inside of it you can also call the above frameworks. Btw classical computer vision techniques cannot be achieved by deep learning frameworks.

Why OpenCV? : computervision

The first alpha version of OpenCV was

Read Free Learning OpenCV 3. Computer Vision With Python Second Edition

released to the public at the IEEE Conference on Computer Vision and Pattern Recognition in 2000, and five betas were released between 2001 and 2005. The first 1.0 version was released in 2006. A version 1.1 "pre-release" was released in October 2008. The second major release of the OpenCV was in October 2009.
