Letting In Light was a gentle story that draws you in very early on, and doesn't release its grip on you. The passage of time moves forward quite regularly, so it feels as though you are just catching up in the key moments of their lives, and I loved this story of friendship, family and love.

Overall, Letting In the Light was a light, easy going read, with nice characters and no great drama. I liked the fact that this book was so different from the other book of Ms Sutherland's I have previously read and that both were good, nice to see a writer that can mix it up. A nice addition to the collection.
