Sturdy, programmable cutter POLAR 66 is designed for one-shift operation. The precise and gentle swing cut is carried out hydraulically. Thus, the time of the knife spent in the lower dead end can be adapted to the material. The ultra-smooth stainless table surface allows an easy handling of the material even without air jets.

The cutter has been giving intermittent issues when it is colder in the shop. Eventually it will work as the temperature rises. Today it has not responded to the warmer temperatures. When we see the non-tripping issue we can observe relay d1 activating on board 7SB (polar 015112) but nothing else happens.
