including duality, the simplex algorithm and sensitivity analysis, with a particular focus on geometry.

## **Notes - Daniel Guetta - danguetta.github.io**

The course cover the topics of probability, distribution of random variables, foundations of inference,

# File Type PDF Statistical Inference Course Notes Github Pages

simple and multiple regression and inference for categorical data. This is an online course which was developed by Julie Vu (UCL) and David Harrington (Harvard). Materials for the course (book, R programs and data) are available online (<https://github.com/Ol-Biostat>).

# File Type PDF Statistical Inference Course Notes Github Pages

## **Inference - GitHub Pages**

Statistical inference is the process of drawing conclusions about populations or scientific truths from data. There are many modes of performing inference including statistical modeling, data oriented strategies and explicit use of designs and randomization in analyses.
