### Transforming Business with Program Management

Transformation is a common theme and need for government organizations today. Transformation programs face special challenges to effective management; however, these challenges can be addressed though the processes and structures used to manage the program, as well as the approach to conduct the program itself.

### Transformation Program Management - Critical Factors

Business transformation programs Large-scale Enterprise architecture upgrades System Integration initiatives involving multiple vendors/partners High risk and reward initiatives This paper is useful for any resources working on above initiatives. 1. The Program Management Challenge Program management needs holistic view of

### Effective Program Management Practices

Most transformation programmes generally go over budget, overrun their schedules and, if completed, leave defects or inadequacies post-implementation. Even if programmes have delivered to these parameters of cost, time, and quality, transformation objectives and business benefits may still not be achieved.
